Shell Oil Company

Workshop Sessions

Monday, February 27

1:00 pm – 5:00 pm

IED Counterterrorism Workshop

Michael Dailey, Security Specialist,
Office for Bombing Prevention,
Department of Homeland Security
Shawn Pratt, Security Specialist,
Office for Bombing Prevention,
Department of Homeland Security

This awareness level workshop is designed to enhance the knowledge of state/local law enforcement and public/private sector stakeholders by providing exposure to key elements of the improvised explosive device (IED) threat, surveillance detection methods and soft target awareness. The workshop illustrates baseline awareness and prevention actions that reduce vulnerabilities to counter the threat along with collaborating information sharing resources to improve preparedness. This designed approach better enables the owners and operators of critical infrastructure and key resources to deter, prevent, detect, protect against, and respond to terrorist use of explosives in the United States.

Tuesday, February 28

8:00 am – 9:30 am

Washington Update

Charlie Drevna, President, AFPM

Keynote: KT McFarland

FOX News' National Security Analyst

Last year the "Arab Spring" had just begun and it is now one year later. Much has developed since last spring including the escalating revolt in Syria and Iran threatening to shut down the Strait of Hormuz. KT will provide valuable insight into the evolution of the "Arab Spring" since last year, new developments and how your company may be influenced. KT's talks are always fascinating and with the recent changes in the Middle East this will be an extremely informative session.

10:00 am – 10:45 am

Strike Security Planning

Joe Schollaert, Senior Vice President,
International Management Assistance
Corporation

This presentation offers company management an overview of what types of activity and tactics to expect related to picket lines during a labor dispute. The presentation explains what strike security measures need to be planned for and implemented, and how they vastly differ from just adding a few more guards to the everyday security team. Suggestions are offered regarding physical property adaptations as well as employee training and security policy modifications. Evidence gathering and documentation are reviewed as they relate to strike misconduct around picket lines and securing injunctive relief.

10:45 am – 11:45 am

Labor Relations / Human Resources Panel

Moderator: *Dan Strachan*, Director,
Industrial Relations & Programs, AFPM
John Durkay, General Counsel,
Industrial Safety Training Council
Chad Horner, Chief Counsel Domestic
Labor and Employment Law,
Koch Companies Public Sector, LLC
Jason Wiley, Labor Relations, Assistant
General Counsel, Hess Corporation

This panel will discuss criminal background screenings in 2012. How they work in the real world, what you can expect, and how you develop legal and regulatory compliant programs that will also give you real world results.

1:30 pm – 2:30 pm

Successful Prosecution of Oil Field Crimes

John Klassen, Assistant U.S. Attorney,
Western District of Texas,
Midland-Odessa Division

This presentation will outline various criminal statutes, including Destruction of an Energy Facility, Interstate Transportation of Stolen Property, Wire Fraud and Mail Fraud, that can be used in the prosecution of crimes that commonly occur in the energy sector. Examples of successful prosecution in Midland-Odessa using these statutes will be discussed. Guidance will also be given concerning what factors make a case appealing for federal prosecutors and agents to accept.

2:30 pm – 3:15 pm

Anatomy of a Breach – What Would Your Facility Do?

Clyde Miller, Director, Corporate Security,
BASF Corporation

A breach occurs at your facility. How will you respond? See how a member company dealt with such an event.

3:30 pm – 4:15 pm

Applying Winning Strategies and Techniques in Corporate Investigations

Robert Lee, Senior Consultant,
Alpha 6 Security

This presentation is intended to provide attendees with proven strategies to enable them to conduct effective investigations and obtain credible results.

4:15 pm – 5:30 pm

Department of Homeland Security Updates for Petrochemical & Refining Industries

Suzanne Spaulding, Deputy
Undersecretary, National Protection
and Programs Directorate,
Department of Homeland Security
(invited)

David Wulf, Deputy Director, Office of
Infrastructure Protection, Department
of Homeland Security

Bill Cummins, Oil and Natural Gas Sector
Specialist

Workshop Sessions

Wednesday, February 29

8:00 am – 9:00 am

Critical Decisions in Crisis: Lessons Learned from 9/11/01

Joe Dittmar, Director of Property
Insurance, Risk Evaluation and Design

This presentation will afford those present the opportunity to experience a new side of critical decision-making at a time of crisis. The decision-making theme runs heavily throughout the entire presentation and highlights how initiative, common sense and even luck can alter one's well being, safety and security. It also confirms that safety and security can only be assured if planning and execution are part of one's daily work and personal routine.

9:15 am – 10:00 am

An Update on Coast Guard Security Activities

James Bull, Deputy Chief, Office of Port and Facility Activities, Cargo and Facilities Division, U.S. Coast Guard

This presentation will update attendees on Coast Guard activities concerning the MTSA regulations, TWIC, MTSA/CFATS Harmonization, and the Certain Dangerous Cargo Strategy.

10:00 am – 10:45 am

API Standard 780 – Security Risk Assessment Methodology for the Petroleum & Petrochemical Industries

David Moore, President,
AcuTech Consulting Group

The API/NPRA SVA methodology developed in 2003 has successfully been implemented to provide a complete security risk assessment process adaptable to the assets and threats facing the petroleum and petrochemical industry. The methodology is in the process of now being converted to an American National Standard proposed as ANSI/API Standard 780, Security Risk Assessment for the Petroleum and Petrochemical Industry. This paper will overview the key developments of the methodology and describe the features and benefits it provides.

10:45 am – 11:30 am

TSA Updates

Jack Aherne, Director, Hazardous Materials, Transportation Security Administration

This session will discuss recent risk and consequence modeling done by TSA. It will include videos demonstrating real world transportation risk scenarios. The session should be both interesting and informative for all those concerned about transportation risks.

12:45 pm – 1:30 pm

Cyber Security Panel: Working with Cyber for Mutual Benefit

Moderator: *Dan Strachan*, Director, Industrial Relations & Programs, AFPM
Rick Kaun, Manager, IT Solutions, Honeywell Process Solutions
Randy Black, Corporate Security and Crisis Manager, Ineos Olefins & Polymers USA, LLC
Ed Crawford, PCN Support Team Lead, Chevron Energy Technology Company

The panel will discuss how the "wall" between cyber security and physical security is becoming more transparent at facilities and that there are similarities and differences between the two different types of security. The panel will highlight these differences and what is needed for both to work together to provide overall security for the facility.

1:30 pm – 2:15 pm

Handle with Care; Mail Center Threats

Tripp Brinkley, Assistant Inspector in Charge, US Postal Inspection Service, Houston Division

In the absence of effective countermeasures, terrorist groups, environmental extremists, and even disgruntled employees can wreak havoc on an organization by using mail to deliver threats. This presentation will include behind-the-scenes details of actual parcel bombs, biological weapons, and other threats that have been conveyed by mail or couriers, and review essential components of mail center security to counter the threat of parcel bombs, suspicious powders, and other criminal exploits. Attendees will receive a customizable response plan for suspicious mail incidents, and training materials for mail center employees.

2:15 pm – 3:00 pm

Predictive Profiling and Threat Mitigation

Amotz Brandes, Managing Partner,
Chameleon Associates

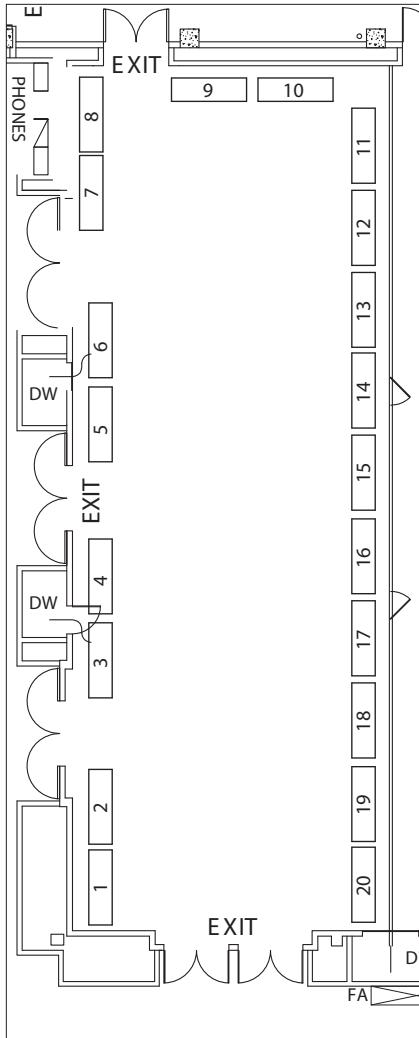

Predictive Profiling categorizes criminals and terrorists into behavioral profiles as opposed to racial, religious or ethnic ones. This proprietary method provides a complete operational profile for a criminal or terrorist scenario, from the planning of the attack to the execution. It focuses on what criminals and terrorists do, and not who they are. It is an extremely efficient and effective kind of behavioral assessment to counter threats to a wide variety of security environments, both open and closed.

Floorplan of Exhibition Legends 1-3

Exhibit Hours:

Tuesday 11:45 am – 1:30 pm
5:30 pm – 6:30 pm

Wednesday 11:30 am – 12:45 pm

List of Exhibitors: Alphabetical by Company

1st Detect Corporation (7)

907 Gemini St.
Houston, TX 77058
Phone: 972-617-9939
Warren Mino
info@1stdetect.com
http://www.1stdetect.com
1st Detect offers the breakthrough Miniature Chemical Detector (MCD) that revolutionizes the market by combining the performance of mass spectrometry in a small, easily portable package. The detector is based on an ion trap design and is approximately the size of a shoe box.

ADT Advanced Integration (4)

Valley Forge Business Center
2450 Boulevard of the Generals
Norristown, PA 19403
Phone: 610-630-6790
Steven Greis
sgreis@adt.com
http://www.adtbusiness.com/petrochem
ADT's Petrochemical Group has dedicated expertise in chemical security and works with hundreds of CFATS and MTSA affected sites. ADT integrates and manages all aspects of construction and security solutions to support CFATS RBPS.

Ameristar Fence Products (17)

1555 N Mingo
Tulsa, OK 74116
Phone: 918-879-5905
Craig Summers
csummers@ameristarfence.com
http://www.ameristarfence.com
AMERISTAR is the world's largest manufacturer of high quality, maintenance free, ornamental fencing. Used as a perimeter fence, security fence, for controlled access, homeland security, or simply to enhance the property's appearance – we manufacture a specific grade and style for each application need.

Beaed, LP Booth (8)

P. O. Box 1760
1850 ByPass 35
Alvin, TX 77512-1760
Phone: 281-331-2035
Christie Reiaux
christie_r@beaed.com
http://www.beaed.com
National manufacturer and supplier of custom signs, commercial print FR uniforms, and promotional products.

Covenant Security Services (18)

Two International Plaza, Suite 407
Philadelphia, PA 19113-1521
Phone: 610-362-0570
Rebecca Horner
rebecca.horner@covenantsecurity.com
http://www.covenantsecurity.com
Covenant Security Services provides uniformed security officers, consulting services, and innovative training programs to fortune 500 companies and the U.S. Government.

Department of Homeland Security (11)

245 Murray Lane
Mail Stop 0608
Arlington, VA 20598-0608
Phone: 703-603-5113
Robert Kirk
robert.kirk@hq.dhs.gov
http://www.dhs.gov
The Chemical Sector Specific Agency works collaboratively with sector partners to develop free voluntary programs and publications. These items are available for private sector partners to help mitigate security risks in the sector.

First Advantage (1)

100 Carillon Parkway
Saint Petersburg, FL 33716
Phone: 727-290-1000
Neil Schulman
tas@fadv.com
http://www.FADV.com
First Advantage provides a cost effective and consistent screening solution for contractor companies requiring access to owner/operator secure facilities. It has been enhanced by the Safety Council Security Consortium as the de-facto standard by 14 additional Safety Councils.

FLIR Systems (13)

27700 SW Parkway Ave
Wilsonville, OR 97070
Phone: 503-498-3547
Greg Zuckett
greg.zuckett@flir.com
http://www.flir.com
FLIR Systems imaging and detection systems are used for a variety applications, including airborne and ground-based surveillance, search and rescue, drug interdiction, border and maritime patrol, environmental monitoring, and CBRNE.

List of Exhibitors: Alphabetical by Company

Future Fibre Technologies (FFT) (3)

800 West El Camino Real, Suite 180
Mountain View, CA 94040
Phone: 877-650-8900
Erick Reynolds
ereynolds@fft-usa.com
<http://www.fftsecurity.com>
Future Fibre Technologies (FFT) is the manufacturer of Secure Fence and Secure Zone, optic perimeter intrusion detection systems. These advanced products provide reliable perimeter intrusion detection with virtually no nuisance alarms.

G4S Secure Solutions USA (9)

1359 University Blvd
Jupiter, FL 33458
Phone: 800-275-8305
Carlos Barbosa
cbarbosa@wackenhutg4s.com
<http://www.g4s.com/us>
G4S – the leader in energy, chemical and petrochemical security. From evolving federal regulations, maintaining safety records to developing emergency plans, G4S integrates its own technology, design & engineering, emergency response and best security officers into seamless solutions for your specific needs.

G4S Technology (10)

1200 Landmark Center, Suite 1300
Omaha, NE 68102
Phone: 402-233-7700
David Crenshaw
David.Crenshaw@usa.g4s.com
<http://www.g4stechnology.com>
G4S Technology, formerly Adesta, is a systems integrator for communication networks and security systems. We provide customers with a single point of contact to design, engineer, integrate, construct, manage, operate and maintain networks and systems.

Gallagher Security Management Systems (19)

2800 W. Airport Blvd., Suite 100
Sanford, FL 32771
Phone: 407-302-4055
Tom LaRose
Tom.LaRose@gallagher.co
<http://www.security.gallagher.co>
Gallagher provides integrated perimeter security, access control and intruder alarms systems to provide refining safety and security with a measurable RDI.

Industrial Safety Training Council (6)

324 N. Memorial Fwy
Nederland, TX 77627
Phone: 832-514-4600
Cindy Wright
cindy@istc.net
<http://www.istc.net>
Industrial Safety Training Council and Industrial Fire Training Complex

Off Duty Services (14)

6701 Hwy. 90, Suite 107
Katy, TX 77494-1089
Phone: 281-346-2188
Pete Silewicz
offduty@offduty.com
<http://www.offduty.com>
Off Duty Services, is a nationwide provider of off duty police officers to the private sector. We manage all officer payroll, insurance, scheduling and provide one point of contact for our customers.

Roberts Law Group PLLC (16)

700 Louisiana Street, Ste #2300
Houston, TX 77002
Phone: 713-572-3600
Steve Roberts
roberts@chemicalsecurity.com
<http://www.chemicalsecurity.com>
The Roberts Law Group assists chemical and petrochemical companies comply with homeland security regulations, especially CFATS, MTSA/TWIC, HM-232, and Rail Hazmat. We provide legal representation, consulting advice and guidance on all aspects of compliance.

Securitas Security Services USA Inc. (2)

8866 Gulf Freeway, Suite 500
Houston, TX 77017
Phone: 713-501-0747
James Hosel
james.hosel@securitasinc.com
<http://www.securitasinc.com>
Securitas is the largest US security company. We provide uniformed security officer services, security solutions, executive protection, background investigations, consulting and investigation and risk assessments.

Senstar Inc. (20)

13800 Coppermine Road, 2nd Floor
Herndon, VA 20171
Phone: 703-463-3088
Martha Lee
info@senstar.com
<http://www.senstar.com>
Senstar Inc. – the world's trusted choice for perimeter intrusion detection and security solutions. For close to 30 years, in thousands of sites, in more than 80 countries, our products have provided reliable detection of intruders as soon as they enter restricted or sensitive areas.

Southwest Microwave, Inc. (5)

9055 S McKemy St
Tempe, AZ 85284
Phone: 480-783-0201
Tom Wallace
infossd@southwestmicrowave.com
<http://www.southwestmicrowave.com>
Southwest Microwave has protected broad-ranging industrial sites since 1971 with perimeter intrusion detection systems that perform reliably in high security applications and harsh exterior environments.

Vumii Imaging Inc. (12)

1100 Abernathy Rd., Suite 1100
Atlanta, GA 30328
Phone: 678-578-4700
Ron Petrie
ronpetrie@vumii.com
<http://www.vumii.com>
Vumii delivers a comprehensive portfolio of long-range surveillance cameras that enable its customers to detect, recognize, and identify security threats from daytime to complete darkness at ranges out to 4000+ meters.

Waterfall Security Solutions Ltd (15)

1133 Broadway, Suite 708
New York, NY 10010-8065
Phone: 212-714-6058
Colin Blou
info@waterfall-security.com
<http://www.waterfall-security.com>
The leading provider of Unidirectional Security Gateways for Control networks. Waterfall's security solutions provide absolute security of critical cyber assets by physically segregating networks yet enabling full visibility of control network data. Waterfall's offering supports leading industrial applications and SCADA protocols.

PRODUCTS FOR YOUR LIFE. EVERY DAY.
